

ABOUT US

“Leadership and learning are indispensable to each other,” says John F. Kennedy. At COC, we believe the future doesn’t need a microscope to determine how bright, near or far it is. It is a result of our own actions and what today was built on. Our core mission at Conduit of Change is to offer assistance and support to families by providing both academic and mentoring services to influence the lives of the children. We are determined to unleash and develop the growth potential of all of our youth.

**LEARNING
AND PLAYING
IS FUN**

**WE HEAR.
WE CARE.
WE UNDERSTAND**

MENTORSHIP PROGRAM

This program is for mentoring your teens, building their confidence and self-esteem, and influencing them to embrace effective study habit. We want teens in junior high school and in high school to make better choices and live a fulfilling life.

We want to ensure that every teen develops well and that they discover their purposes in life. We also help them in their weak subjects of study such as Math, Reading, Speech, Writing, Science, and many more. We're always moving towards excellence and fostering a brighter future for the kids!

VIRTUAL TUTORING

We at COC have developed a program called Virtual Home School Help. VSHH, is created to take the pressure off of parents, by providing virtual assistance to help fill in the gaps where teachers are not able to. We want to be the bridge between school and e-learning. Our goal is to assist parents to ensure that no child falls behind academically.

VSHH assists children with all subjects with homework and clarification on classwork. During this difficult time, we are here to help. At Conduit Of Change, We hear. We Care. We Understand

BEFORE AND AFTER SCHOOL

CampCOC is the perfect blend of excitement and learning. We provide a safe, enjoyable and enriching environment for children during their summer break. Parents no longer have to worry about their child falling behind during the summer months. We have constructed a program with age appropriate activities that will get each child prepared for the next grade level, while having the best summer experience.
